**Subject:** Eagle Mine LLC Response to Items #3 and #4 of CWA Section 308(a) Request  
**Attachments:** 4435\_001.pdf

Mr. Moody,

I am transmitting this note to you on behalf of Eagle Mine LLC because they are currently experiencing some difficulties with their internet connection. I would appreciate it if you would confirm receipt via reply e-mail.

Eagle Mine LLC has prepared documentation package(s) in response to Items #3 and #4 of the US EPA's Section 308(a) CWA request within the following links. A cover letter addressing the responses is also attached to this email.

[HTDF General SW Permit \(MIS210034\)](#)

[Mill Construction SW Permit \(MIR111712\)](#)

[Site-Specific NPDES Permit \(MI0058649\)](#)

[Terminated Permit \(MIR111690\)](#)

Note that we have included information related to the Mill Construction SW permit, even though this permit is not directly related to discharges from the HDTF, which, based on your conversation with Kristin last week, I understand to be the focus of EPA's information request. The inspection forms and records associated with this permit relate to BMP measures at discrete construction areas at the mill property that do not involve (and are not near) the HDTF. Since this permit was referenced in the caption of the request however and because some of the storm water from this area does end up in the HDTF, we decided to provide the information on the permit in this response.

Please note that the links contain fairly large files and may take some time to download. A hard copy of the documentation will be forwarded to the US EPA today.

Thank you,

Allen Reilly on behalf of

Jennifer Nutini

Environmental Engineer
